

Press Information Release

Ai Claims Solutions endorse Thatcham BSI Kitemark (PAS 125)

“The Thatcham BSI Kitemark (to PAS 125) is an important milestone for the repair industry within the UK”, comments Ai Claims Solutions Technical Services Director, Jim Monteith.

“Ai has mandated the Thatcham BSI Kitemark across its Repairer Network and we are proud to be the first motor claims management company to take such a step. Kitemark accreditation clearly demonstrates to the insurance industry and the general public that we are committed to quality and safety standards. It also enables our Repairers to publicly demonstrate that they have competent people and use recognised methods, material and equipment. With 82% of the UK adult population recognising the Kitemark, meeting its standards can only have a positive impact on the future of the industry”.

Scott Hanney of BSI remarked “We are delighted that Ai has taken the step to mandate the Kitemark across its network. They are the first motor claims management Company to do so and this will undoubtedly complement their continued growth within the Insurance sector.”

Monteith added “As we continue to enhance and develop our product offering for our partners, it is important that we are seen to be leading the way by endorsing this standard, something the industry has been crying out for over the past few years”.

Ai Commercial Development Manager John Virando, heavily involved in the Kitemark initiative, was delighted to note “strong support for adoption of the standard from the Ai Repairer Network members”.

Notes to Editors

About Ai Claims Solutions:

Shares in Ai Claims Solutions began trading on AIM in December 1999. The Group has a current market capitalisation of £18.4m and shares are currently trading at a price of 30p.

Ai Claims provides a range of services covering all the key aspects of any motor insurance claim. These include the management of Accident Management Services, Cost Containment, Claims, Debt Recovery, Vehicle Repair, Replacement Vehicles and Personal Injury Claims Management.

Ai Claims is proud to be transforming the way that motor insurance claims are handled in a way that benefits everyone: insurers, policyholders, vehicle repair centres, fleets, suppliers, intermediaries and the whole insurance market.

Ai actively manages the claims process to ensure maximum efficiency. The Group is independent; it does not run its own car fleet.

On the 22nd February 2007, the Group reported Preliminary Results for the 6 months ending 31 December 2006 showing:

- Turnover of £14.8m (2005: £20.9m)*
- Group Operating Profit of £699,000 (2005: £685,000)*
- Gross profit margin increased from 21.3%% to 29.9%*
- Adjusted EPS increased by 0.22p to 0.69p (2005: 0.47p)*

Ai is based in Blackpool and employs c.320 members of staff.
